Dear Sir:

I am writing to enclose copies of correspondence relative to the Federal Unemployment Insurance tax.

As I explained to you over the telephone, there is a Federal tax, the same amount as the state tax, for unemployment insurance. If the state tax has been paid you may deduct 90% from the federal tax when making payment.

Mr. Abramson, the gentleman who takes care of all our tax reports, has written to ask for an extension of time in which to make the payment. I am in a position to pay the federal tax, if they would permit the 90% deduction.

Do you think we should make an effort to get the federal government to accept the tax in this way, or try to get them to wait until the state tax has been paid?

I am going to Philadelphia today on business, and expect to be there three or four days. I can be reached there at 301 Earl Ham Terrace Germantown, telephone Victor 2799. However Mr Manley will be in Newark if you want him.

Do you

Very Truly Yours
